## Table of contents

1. Existing Approved Project .....	3
2. Description of proposed development/activity/works .....	6
3. Timeframe .....	7
4. Site description .....	7
5. Site Environmental Characteristics .....	8
6. Justification for the proposed works .....	8
7. Environmental Benefit.....	8
8. Control Measures .....	9
9. Climate Change Impacts .....	9
10. Impact Assessment – Construction .....	10
11. Impact Assessment – Operation.....	16
12. Consistency with the Approved Project.....	18
13. Other Environmental Approvals .....	20
Author certification .....	21
Environmental Representative Review .....	21
Appendix A – Site Locations .....	23
Appendix B – Land Owners Consent and Work Permit Application .....	24
Appendix C – Lot on Plans .....	25
Appendix D – Approved Project Boundary.....	26
Appendix E – Approval from the City of Canterbury Bankstown Council to use Two Car Spaces.....	27
Appendix F – Community Notification .....	40

The Planning Approval Consistency Assessment Form should be completed in accordance with [SM-17-00000103 Planning Approval Consistency Assessment Procedure](#).

## 1. Existing Approved Project

Planning approval reference details (Application/Document No. (including modifications)):

Sydney Metro City & Southwest - Sydenham to Bankstown (SSI 8256)  
CSSI 8256 MOD 1 determined 22 October 2020  
SPIR Appendix B

Date of determination:

Planning Approval Date – 12/12/2018

Type of planning approval:

Critical State Significant Infrastructure

Description of existing approved project you are assessing for consistency:

Sydney Metro City and Southwest – Sydenham to Bankstown works includes the following:

- Station upgrades;
  - Installation of platform screen doors
  - Provision of operational facilities, such as station service buildings
  - Upgrades of 10 stations from Marrickville to Bankstown to provide lifts and level access where not available.
  - Accessibility upgrades for buildings
  - Works related to integration with other modes of transport.
- Track and rail systems;
  - Upgrades of track at Bankstown
  - Rail cross-over at Campsie
- Other Project elements;
  - Security measures, such as fencing
  - Noise barriers
  - Augmentation of existing power supply, including new traction sub-stations
  - Bridge protection works
  - Combined Service Route
  - Drainage
  - Utility and rail system protection.
- Other Project elements;
  - Provision of temporary facilities to support construction, including construction compounds and work sites.

It is assumed that construction activities would occur along the length of the rail corridor within the Project area. Construction areas would be generally accessed via existing corridor gates along the rail corridor.

Relevant background information (including EA, REF, Submissions Report, Director General's Report, MCoA):

- The Sydney Metro City & Southwest – Sydenham to Bankstown – State Significant Infrastructure Assessment (SSI 8256), dated 12th December 2018
- The Sydney Metro City & Southwest – Sydenham to Bankstown - Environmental Impact Statement, dated 7th September 2017
- The Sydney Metro City & Southwest – Sydenham to Bankstown – Submissions and Preferred Infrastructure Report, June 2018
- The Sydney Metro City & Southwest – Sydenham to Bankstown – Submissions Report, September 2018
- The Sydney Metro City & Southwest – Sydenham to Bankstown – Instrument of Approval, dated 12th December 2018.

All proposed works identified in this assessment would be undertaken in accordance with CSSI 8256 CoA A1, A2 and A3. The mitigation measures identified in the Environmental Impact Statement (EIS), Submissions and Preferred Infrastructure Report (SPIR), Revised Environmental Mitigation Measures, the Submissions Report, Conditions of Approval and MOD 1 of SSI 8256 will be implemented.

## 2. Description of proposed development/activity/works

Describe ancillary activities, duration of work, working hours, machinery, staffing levels, impacts on utilities/authorities, wastes generated or hazardous substances/dangerous goods used.

Downer intend to utilise the following nature strips as part of construction works:

1. Urunga Parade to Shadforth Street, via Stanlea Parade – to be used as a temporary laydown area and for vehicle access. The existing Australian Temporary Fencing (ATF) alignment would be extended to the existing walkway.
2. Between Wiley Park Station and The Boulevarde with access from The Boulevarde - to continue to be used as a temporary laydown area and for vehicle access. ATF would be erected around the work area with an access point in place.

Both areas are shown in **Appendix A**.

This Consistency Assessment relates to the use of additional land, currently outside the approved Project Boundary (refer to **Appendix D**), as laydown areas for inert materials and/or construction access in order to facilitate construction works. It is important to note that nature strip adjacent to The Boulevarde (including the two car spaces) that would be occupied lie within the Approved Project Boundary. As such, a Consistency Assessment is not required for the nature strip and two car parks to be occupied adjacent to The Boulevarde, but they have been included as part of this assessment for completeness. Downer EDI currently has approval from the City of Canterbury Bankstown Council to occupy the areas reference prior up to and including the 5 November 2022. To facilitate a duration extension of the use of the lands Downer have further sought permit extensions. Downer has submitted a Work Permit Application – Form 1272 (For Metro Project) to the City of Canterbury Bankstown Council on the 14 October 2022 for consideration. The road lane footpath closure permits for Stanlea Parade and The Boulevarde are still pending receipt from the Council. Please refer to **Appendix B** for evidence of the submitted applications. No works can commence until Council permits are received. Once works are completed the land would be returned to the public to meet the current site conditions and land use.

The subject areas would be occupied 24/7 between April 2021 and May 2023 to facilitate construction works. Construction works are expected to occur during both standard construction hours and outside of standard construction hours. Where construction works are undertaken outside of standard construction hours, these works would be subject to an Out of Hours Works Permit.

No hazardous substances/chemicals or dangerous goods would be stored in either construction area.

### 3. Timeframe

When will the proposed change take place? For how long?

These sites would only be used during construction of the Approved Project. Fencing and laydown of materials would take place between April 2021 and May 2023. Temporary fencing would be in place for the entire period with access points for vehicles.

### 4. Site description

Provide a description of the site on which the proposed works are to be carried out, including, Lot and Deposited Plan details, where available. Map to be included here or as an appendix. Detail of land owner.

The two portions of land to be occupied are detailed below and shown in **Appendix A**.

1. Urunga Parade to Shadforth Street, via Stanlea Parade – to be used as a temporary laydown area. The ATF alignment would be extended to the existing walkway.
2. Wiley Park with access from The Boulevard - to be used as a temporary laydown area and for vehicle access. ATF would be erected around the work area. Two car parking spaces in the car park would be removed at The Boulevard for the entirety of the construction works. Note that this area is located within the Approved Project Boundary (refer to **Appendix D**) and that this scope has been included for completeness based on similar scope of works as Stanlea Parade.

Both portions of land do not have Lot on Plan numbers and are owned by the City of Canterbury Bankstown Council. **Refer to Appendix C**. Currently both portions of land are used as nature strips.

## 5. Site Environmental Characteristics

Describe the environment (i.e., vegetation, nearby waterways, land use, surrounding land use), identify likely presence of protected flora/fauna and sensitive area.

The area consists of two grassed nature strips, one adjacent to The Boulevarde and the other on Stanlea Parade. There are two bench seats at The Boulevarde which would be relocated. A nearby flood water culvert runs under the track from the Boulevarde to Urunga Parade. From The Boulevarde the rail corridor is directly north while from Stanlea Parade the rail corridor is directly south.

There are trees located within both The Boulevarde and Stanlea Parade nature strip areas. These would be protected for the duration of occupation of both areas. There is no known protected flora or fauna or other environmentally sensitive area within the land to be occupied.

Directly surrounding the The Boulevarde are residences and two schools (Wiley Park Public School and Wiley Park Girls High School) adjacent to The Boulevarde. Stanlea Parade is flanked by residences to the northern side.

## 6. Justification for the proposed works

Address the need for the proposed works, whether there are alternatives to the proposed works (and why these are not appropriate), and the consequences with not proceeding with the proposed work.

The areas would be occupied to facilitate the project safe access for the complete reconstruction works of Wiley Park Station. The new compounds would provide safe storage of materials and allow environmental management in the narrow rail corridor surrounding Wiley Park.

## 7. Environmental Benefit

Identify whether there are environmental benefits associated with the proposed works. If so, provide details:

During the works, it is anticipated that the environmental conditions would be improved (e.g. ballast installed to provide a clear path for rainwater which currently causes boggy conditions at the sites). After works are completed, the nature strips would be handed back to Council in pre-existing or better condition than they were received in.

## 8. Control Measures

Will a project and site specific EMP be prepared? Are appropriate control measures already identified in an existing EMP?

Works would be completed under the project, Construction Environment Management Plan (CEMP), CEMP sub-plans, Community Liaison Management Plan (CLMP) and Community Consultation Strategy (CCS).

## 9. Climate Change Impacts

Is the site likely to be adversely affected by the impacts of climate change? If yes, what adaptation/mitigation measures will be incorporated into the design?

No changes to climate change impacts.

## 10. Impact Assessment – Construction

Attach supporting evidence in the Appendices if required. Make reference to the relevant Appendix if used.

Aspect	Nature and extent of impacts (negative and positive) during construction (if control measures implemented) of the proposed/activity, relative to the Approved Project	Proposed Control Measures in addition to project COA and REMMs	Minimal Impact Y/N	Endorsed	
				Y/N	Comments
Flora and fauna	The trees within The Boulevard and Stanlea Parade nature strips would be protected whilst the laydown areas are in place. There is no known protected flora or fauna or other environmentally sensitive areas within this area.	Comply with mitigation measures as stated within the Arborist Reports (Urban Arbor and Plateau Trees) and CEMP.	Y	Y	
Water	No change from the EIS and SPIR.	<p>Include this area within Erosion and Sediment Control Plan for the area – include any controls required to mitigate erosion/dirt tracking at the access point.</p> <p>No change from the EIS and SPIR.</p> <p>Comply with mitigation measures as stated within the CEMP and CEMP sub-plan.</p>	Y	Y	
Air quality	No change from the EIS and SPIR	Comply with mitigation measures as stated within the CEMP.	Y	Y	

Aspect	Nature and extent of impacts (negative and positive) during construction (if control measures implemented) of the proposed/activity, relative to the Approved Project	Proposed Control Measures in addition to project COA and REMMs	Minimal Impact Y/N	Endorsed	
				Y/N	Comments
Noise vibration	No change from the EIS and SPIR. The location of the access road is consistent with the current and approved access road as per the EIS and SPIR and noise impacts from the access road are consistent with the Project CNVIA. Whilst it is noted that the extension of the boundary relocates the fence 2m closer to residents, particularly on Stanlea Parade, the source of noise being vehicle movements shall not change as the location of the road has not been altered and / or no alteration in type / plant selection from that previously assessed. For example, the material unloading is for less than a 15-minute period in any 1 hour and would be intermittent and a maximum of 5 vehicle movements per day would occur during possession periods. During standard hours this would be on an ad hoc basis.	Comply with mitigation measures as stated within the CEMP and CEMP sub-plan.	Y	Y	
Indigenous heritage	No change from the EIS and SPIR	Comply with mitigation measures as stated within the CEMP and CEMP sub-plan.	Y	Y	
Non-indigenous heritage	Wiley Park Station is a heritage item of local significance listed in the Canterbury Local Environmental Plan 2012 (item #159) and RailCorp s170 heritage register (Item #4802009). The construction laydown areas are located outside of the curtilage of this heritage item. They are also temporary in nature and the sites will be restored to the pre-existing condition once works are complete. Therefore, the construction laydown areas are not expected to result in an adverse impact to this heritage item.	Comply with mitigation measures as stated within the CEMP, CEMP sub-plan, Archaeological Method Statement (AMS) and Unexpected Heritage Finds Procedure.	Y	Y	

Aspect	Nature and extent of impacts (negative and positive) during construction (if control measures implemented) of the proposed/activity, relative to the Approved Project	Proposed Control Measures in addition to project COA and REMMs	Minimal Impact Y/N	Endorsed	
				Y/N	Comments
Community and stakeholder	Both nature strips will be cordoned off as they will be used to facilitate construction works (laydown areas and access points for construction vehicles). The community and stakeholders will not have access to these nature strips while works are being conducted. The footpath will remain open and no pedestrian detours are required. Loss of two car parking spaces at The Boulevarde to facilitate works at the nature strip adjacent to The Boulevarde will occur. The relocated benches will be approximately 2m from where they were before.	<p>Community consultation and notifications, including (<b>Refer to Appendix F</b>);</p> <ul style="list-style-type: none"> <li>- Installations of new fencing, gates and access points.</li> <li>- Signage advising of loss of two parking spaces at The Boulevarde.</li> <li>- Monthly notification advising of sit establishment work is being carried out within the station area.</li> </ul> <p>Implementation of control measures as per the CEMP, Community Notification (April 2021), CLMP and CCS.</p>	Y	Y	

<p>Traffic</p>	<p>Loss of two car parking spaces at The Boulevard has been approved by the City of Canterbury Bankstown Council (refer to <b>Appendix E</b>) to facilitate works at the nature strip adjacent to The Boulevard. These parking spaces are part of commuter parking provided as part of the RMS Clearways Project. This commuter parking was not in place at the time of the EIS being published but the EIS made mention of these spaces in the future. There is sufficient on-street parking available to accommodate the loss of two commuter parking spaces.</p> <p>Downer have taken into consideration the two local schools (Wiley Park Public School and Wiley Park Girls High School) in the area and will not be taking up the parking spaces either during school drop off or after school pickup. Toolbox talks will be undertaken to remind Downer workers and contractors of their obligation to be considerate of parking in the area and ideally park some distance (e.g. 100m away) to ensure sufficient parking remains. In addition the new laydown areas are not expected to generate any additional demand on on-street parking by personal construction vehicles – this was already considered in the EIS.</p> <p>The work zone approval from the Canterbury-Bankstown Council (refer to Appendix B) covers the temporary removal of the two car parking spaces which was provided with the application for use in the aforementioned period. This proposal was discussed with Ash Jarvis and James Magsipoc during the review of the application. For clarity, the site locations (refer to Appendix A) are part of the Work Permit Application (refer to Appendix B) and has been approved. Pedestrian access will only be interrupted during a delivery. Downer will have a spotter in place when this occurs.</p>	<p>No change from the EIS and SPIR.</p> <p>Comply with mitigation measures as stated within the CTMP and CEMP.</p>	<p>Y</p>	<p>Y</p>	
----------------	--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	--------------------------------------------------------------------------------------------------------------------	----------	----------	--

Aspect	Nature and extent of impacts (negative and positive) during construction (if control measures implemented) of the proposed/activity, relative to the Approved Project	Proposed Control Measures in addition to project COA and REMMs	Minimal Impact Y/N	Endorsed	
				Y/N	Comments
Waste	No change from the EIS and SPIR.	Implementation of control measures as per the CEMP.	Y	Y	
Social	No change from the EIS and SPIR.	No change from the EIS and SPIR.	Y	Y	
Economic	Pedestrian pathways along Stanlea Parade will be retained which will maintain neighbourhood connectedness to nearby businesses.	No change from the EIS and SPIR.	Y	Y	
Visual	The areas will be used for laydown of construction materials and plant and equipment will temporarily frequent the areas which is consistent with the construction of railways. The level of visual impact in the Landscape and Visual Impact Assessment in the EIS and SPIR has not changed. The EIS mentions that minor adverse impacts on views during the day and increase lighting at night will result due to construction activities occurring. The SPIR states that the impact of the preferred project would remain as a minor adverse landscape impact during construction.	Comply with mitigation measures as stated within the CEMP including the Visual Amenity Management Plan (VAMP).	Y	Y	
Urban design	No change from the EIS and SPIR.	No change from the EIS and SPIR.	Y	Y	
Geotechnical	No change from the EIS and SPIR.	No change from the EIS and SPIR.	Y	Y	
Land use	The areas are nature strips. The areas will be returned to its previous use and condition upon completion of the works. Car parks will be given back to the public on completion of construction works.	No change from the EIS and SPIR.	Y	Y	
Climate Change	No change from the EIS and SPIR.	No change from the EIS and SPIR.	Y	Y	

Aspect	Nature and extent of impacts (negative and positive) during construction (if control measures implemented) of the proposed/activity, relative to the Approved Project	Proposed Control Measures in addition to project COA and REMMs	Minimal Impact Y/N	Endorsed	
				Y/N	Comments
Risk	No change from the EIS and SPIR.	No change from the EIS and SPIR.	Y	Y	
Other	No change from the EIS and SPIR.	No change from the EIS and SPIR.	Y	Y	

## 11. Impact Assessment – Operation

The proposed works are during construction only.

Aspect	Nature and extent of impacts (negative and positive) during operation (if control measures implemented) of the proposed activity/works, relative to the Approved Project	Proposed Control Measures in addition to project COA and REMMs	Minimal Impact Y/N	Endorsed	
				Y/N	Comments
Flora and fauna	No change from the EIS and SPIR.	No change from the EIS and SPIR.	N/A	Y	
Water	No change from the EIS and SPIR.	No change from the EIS and SPIR.	N/A	Y	
Air quality	No change from the EIS and SPIR.	No change from the EIS and SPIR.	N/A	Y	
Noise vibration	No change from the EIS and SPIR.	No change from the EIS and SPIR.	N/A	Y	
Indigenous heritage	No change from the EIS and SPIR.	No change from the EIS and SPIR.	N/A	Y	
Non-indigenous heritage	No change from the EIS and SPIR.	No change from the EIS and SPIR.	N/A	Y	
Community and stakeholder	No change from the EIS and SPIR.	No change from the EIS and SPIR.	N/A	Y	
Traffic	No change from the EIS and SPIR.	No change from the EIS and SPIR.	N/A	Y	
Waste	No change from the EIS and SPIR.	No change from the EIS and SPIR.	N/A	Y	
Social	No change from the EIS and SPIR.	No change from the EIS and SPIR.	N/A	Y	
Economic	No change from the EIS and SPIR.	No change from the EIS and SPIR.	N/A	Y	
Visual	No change from the EIS and SPIR.	No change from the EIS and SPIR.	N/A	Y	

Aspect	Nature and extent of impacts (negative and positive) during operation (if control measures implemented) of the proposed activity/works, relative to the Approved Project	Proposed Control Measures in addition to project COA and REMMs	Minimal Impact Y/N	Endorsed	
				Y/N	Comments
Urban design	No change from the EIS and SPIR.	No change from the EIS and SPIR.	N/A	Y	
Geotechnical	No change from the EIS and SPIR.	No change from the EIS and SPIR.	N/A	Y	
Land use	No change from the EIS and SPIR.	No change from the EIS and SPIR.	N/A	Y	
Climate Change	No change from the EIS and SPIR.	No change from the EIS and SPIR.	N/A	Y	
Risk	No change from the EIS and SPIR.	No change from the EIS and SPIR.	N/A	Y

Management and mitigation measures	No change from the EIS and SPIR.	No change from the EIS and SPIR.	N/A	Y	

## 12. Consistency with the Approved Project

<p>Based on a review and understanding of the existing Approved Project and the proposed modifications, is there is a transformation of the Project?</p>	<p>No. Utilisation of the proposed areas for facilitation of construction works would not transform the Project. The Project would continue to provide a metro rail line between Sydenham and Bankstown.</p>
<p>Is the project as modified consistent with the objectives and functions of the Approved Project as a whole?</p>	<p>Yes. Utilisation of the proposed areas for facilitation of construction works would be consistent with objectives and functions of the Project.</p>
<p>Is the project as modified consistent with the objectives and functions of elements of the Approved Project?</p>	<p>Yes. Changes identified in the assessment are consistent with the objectives and functions of the elements of the Project.</p>
<p>Are there any new environmental impacts as a result of the proposed works/modifications?</p>	<p>All risks would be adequately addressed through the application of the mitigation measures in the above tables. The removal of the two car parking spaces has been at the request of the City of Canterbury Bankstown who advised that the best method is to install the bollards to prevent blockage by the public and to allow consistent access. Consultation in this regard has been with the City of Canterbury Bankstown who have not requested any offsetting in accordance with REMM TC5. The removal of the car parking spaces does not require any breaking of land or environmental disturbance, etc.</p>
<p>Is the project as modified consistent with the conditions of approval?</p>	<p>Yes. The proposed works would be consistent with the Conditions of Approval.</p>
<p>Are the impacts of the proposed activity/works known and understood?</p>	<p>Yes. Impacts from the proposed works are understood and will be accounted for by implementing control measures contained within this document, the CEMP, relevant CEMP sub-plans, CLMP, CCS and any other measures as directed by Council, Sydney Metro and the Sydney Coordination Office (SCO).</p>
<p>Are the impacts of the proposed activity/works able to be managed so as not to have an adverse impact?</p>	<p>Yes. Impacts from the proposed works can be managed so as not to have an adverse impact. The Unexpected Finds Protocol (UFP) will be implemented for any unexpected finds.</p>

### 13. Other Environmental Approvals

Identify all other approvals required for the project:

Road lane footpath closure Council permit for Stanlea Parade and The Boulevard, Wiley Park (pending receipt). No works can commence until permit is received.

## Author certification

To be completed by person preparing checklist.

I certify that to the best of my knowledge this Consistency Checklist:

- Examines and takes into account the fullest extent possible all matters affecting or likely to affect the environment as a result of activities associated with the Proposed Revision; and
- Examines the consistency of the Proposed Revision with the Approved Project; is accurate in all material respects and does not omit any material information.

Name:	Mark Trethewy	Signature:	
Title:	Environment and Sustainability Manager		
Company:	Downer	Date:	24/10/2022

This section is for Sydney Metro only.

Application supported and submitted by

Signature:			

Based on the above assessment, are the impacts and scope of the proposed activity/modification consistent with the existing Approved Project?

- Yes  The proposed activity/works are consistent and no further assessment is required.
- No  The proposed works/activity is not consistent with the Approved Project. A modification or a new activity approval/ consent is required. Advise Project Manager of appropriate alternative planning approvals pathway to be undertaken.

## Appendix A – Site Locations

1) Stanlea Parade proposal: Plan view

Wiley Park – Urunga Parade to Shadforth Street, via Stanlea Parade

Key	
Item	Colour
ATF alignment	Blue
Existing walkway	Green

**Site view**

**Wiley Park – From Urunga Parade looking toward Stanlea Parade**

Key	
Item	Colour
ATF alignment	Blue
Existing walkway	Green

**Site view**

**Wiley Park – From Shadforth Avenue, looking toward Stanlea Parade**

Key	
Item	Colour
ATF alignment	Blue
Existing walkway	Green

## 2) The Boulevard access proposal

### Wiley Park – Access from The Boulevard

Key	
Item	Colour
ATF alignment	Blue
New access	Green
New gate into corridor	Red
2no. Parking spaces to be temporarily taken	Gold
Temporary, droppable bollards with NO STOPPING sign	Black/Red

## Site view

### Wiley Park – Access from The Boulevard

Key	
Item	Colour
ATF alignment	Blue
New access	Green
New temporary gate into corridor	Red
2no. Parking spaces to be temporarily taken	Gold
Temporary, droppable bollards with NO STOPPING sign	Black/Red

Note: existing furniture (2no. chairs) to be temporarily relocated forward toward footpath in front of ATF. ATF to be sited back from footpath to suit chairs sitting off footpath.

---

## Appendix B – Land Owners Consent and Work Permit Application

**About this application**

This application is to be used when applying to carry out construction related activities and work within road reserve such as temporary full or partial road closure, stand and operate vehicle or plant, establish work zones and to carry out public domain works such as vehicular footway crossing.

**How to complete this application**

1. Ensure that all fields have been filled out correctly (Please note that fields on this form marked with an asterisk\* are mandatory and must be completed before submitting the application).
2. Inadequate information will delay processing of your application.
3. Once completed you can **submit this form by email to [metro@cbcity.nsw.gov.au](mailto:metro@cbcity.nsw.gov.au) and pay by credit card.** Once the form is received by Council one of our Customer Service Team members will contact you on the number provided to obtain payment.

## Notes on urgency

1. Installation of a Work Zone and Temporary Full Road Closure require approval of the Local Traffic Committee and the process generally takes six (6) weeks.
2. Minimum of ten (10) working days are required for Council to process Standing & Operating Vehicle or Plant Applications AND Road Lane, Footpath Closure Applications. If possible, urgent Standing Plant & Operating Vehicle Applications will be processed within two (2) working days following complete lodgement of the applications, additional Urgency Fees apply.  
**Two (2) working days processing, however, is not guaranteed. This should only be used in emergency scenarios.**

**Part 1: Details of the Applicant**

Business/Company Name\*

Company's Function (i.e. contractor, sub-contractor)

Business Number ACN/ABN\*

Contact Name\*

Address\*

Mobile Number\*

Email address\*

**Part 2: Location and Details of Proposed Development Work**

Street Name\*

Between Streets\*

Suburb\*

## Work Permit Application 2022/2023 (For SYDNEY METRO Project)

Under the NSW Road Rules 2014, Roads Act 1993 and Local Government Act 1993  
Application Lodgement Hours 9am-4pm Monday-Friday  
**LODGE WITH COUNCIL AT LEAST 8 WEEKS IN ADVANCE OF REQUIRED DATE**

### Part 3a: Application Activity Type please select

Work Zone (WZ)<sup>^</sup>

Temporary Full Road Closure<sup>^</sup>(WZ)

Stand & Operate Vehicle or Plant (CON)

Partial Road Closure – Traffic Lane and/or Footpath (RLF) <sup>^^</sup>

Has this Road Closure with its associated **TMP** and **TCP** been to a previous Traffic Committee?

If so, please provide the following

TMP Doc No

TCP Doc No

Traffic Committee date

<sup>^</sup> Local Traffic Committee approval is required

<sup>^^</sup> Local Traffic Committee approval might be required depending on level of impact

### Part 3b: Supporting Information to be Submitted

#### Work Zone (WZ)

Time Period Required:

Total Number of Months Required\*

Requested Date of Installation\*

#### Stand & Operate Vehicle or Plant (CON)

Please select the involved vehicle or plant to be operating on the road or footpath:

Mobile Crane

Concrete Pump or Truck

Other Work Vehicle, please specify:

Total Number of Days Required

Start Date                      Finish Date                      Times from                      to

#### Partial Road Closure – Traffic Lane and/or Footpath (RLF)

Number of Lanes and/ Footpaths to be Closed

One Lane/One Footpath

Two Lanes/One Lane plus One Footpath

Total Number of Days Required

Start Date                      Finish Date                      Times from                      to

#### Temporary Full Road Closure (WZ)

Dates of Closure\*                      to

Hours of Closure\*                      to

Alternative dates in case of inclement weather \*                      to

Reason for temporary road closure\*

**Information Checklist**

**Note** - Electronic copies of documents on USB or CD need be provided with the Work Permit application

Certificate of Currency for Public Liability Insurance cover of a minimum of \$20,000,000 from the Developer indicating Canterbury Bankstown Council as the Interested Party

Traffic Control Plan (TCP) in accordance Australian Standards AS1742.3

Road Occupancy License (ROL) if working within 100m of a State or Regional Road, or within 100m of traffic Signals

**Part 4a: Public Domain Work**

**Combined Part D** – includes FDI, VFC, SBAL, RO, SWCP and Administration Fee ADM

**Roads Reserve Damage inspection (FDI)**  
(Required for all demolition and development works adjoining or on Council land)

**Vehicle Footway crossing (VFC)**

**Road Opening permit (RO)**

**Street Boundary Alignment level (SBAL)**

**Stormwater Connection (SWCP) to council's Drainage System**

**Civil Works Inspection (CWI)**

All civil works on Council's Footway and Road Reserve require inspection

**Part 4b: Supporting Information to be Submitted**
**Road Opening (RO)**

Purpose of Opening

Proposed commencement date

Proposed completion date

**Public Domain Works**

Purpose of Works

Proposed commencement date

Proposed completion date

**Information Checklist**

**Note** Electronic copies of documents on USB or CD need to be provided with the Work Permit Application

Sediment and erosion control plans

For stormwater connections, detailed stormwater drainage civil plans suitable for construction, prepared and signed by qualified Civil Engineer.

For public domain works, detailed civil plans suitable for construction, prepared and signed by qualified Civil Engineer

## WORK ZONE

CONSTRUCTION FENCE / BARRIER  
**PARTIAL ROAD CLOSURE**

WORK VEHICLE / STANDING PLAN

## STAND OR OPERATE VEHICLE

BARRIER  
**TEMPORARY FULL ROAD CLOSURE**

<b>Supplementary Information</b>				
<b>Activity Requirements</b>	<b>Work Zone</b>	<b>Stand &amp; Operate</b>	<b>Partial Road Closure</b>	<b>Temporary Full Road Closure</b>
Permitted area must be retained in a clean and tidy condition to the satisfaction of Council.	√	√	√	√
Use of the permitted area must not interfere with or compromise the safety of pedestrians, cyclists or motorists.	√	√	√	√
Alternative pedestrian access routes must be safe, clearly visible, appropriately delineated/ barricaded and sign posted at all times.	√	√	√	√
Road Occupancy Licence (ROL) from TfNSW is required if working within 100m of a State or Regional Road or within 100m of traffic signals.	√	√	√	√
Must notify the Transport for NSW Transport Management Centre.				√
All affected residents, businesses must be notified at least one week prior to implementing the permit. Any issues that arise must be resolved to the satisfaction of Council.	√	√	√	√
Roads must be closed in accordance with AS1742.3 and the approved Traffic Management Plan.				√
4 metre wide emergency vehicle access must be maintained at all times.	√	√	√	√
If maintaining the emergency access is not possible the applicant must liaise with emergency services and provide alternative access.				√
If required, a Police Permit must be obtained from the Local Police Station. Present Council approval letter to the Police when applying for a permit.		√	√	
Must advise emergency services of the road closure.				√
Must provide and maintain adequate traffic measures for the safe movement of vehicles and pedestrians in accordance with an approved Traffic Control Plan.		√	√	√
Must indemnify the Council against all claims for damage or injury that may result from the activity or occupation.	√	√	√	√
Must provide documentary evidence of public risk insurance cover indemnifying Council for a minimum of \$20,000,000.	√	√	√	√
Must reimburse the Council for the cost of repair to any damage caused to the road or footpath as a result of their activities.	√	√	√	√
Must comply with any reasonable directive of the Council Rangers, Police or Transport for NSW.	√	√	√	√

Supplementary Information				
Activity Requirements	Work Zone	Stand & Operate	Partial Road Closure	Temporary Full Road Closure
Must comply with the Councils Code of Practice for Construction Hours and Noise.	√	√	√	√
Must ensure a suitable Work Health & Safety Plan is in place for all personnel working at the site.	√	√	√	√
All Traffic Controllers must be TfNSW accredited.	√	√	√	√
Must where practical make alternate parking arrangements for affected residents during the event.			√	√
Must have a Risk Management Plan for the road closure.				√
If the work is on a bus route, the applicant must notify the relevant bus operators before work and pay any associated costs for rerouting services and/or moving bus stops during the occupation.				√
A minimum 3 metre traffic lane width must be maintained at all time.	√	√	√	
A copy of Council Permit and approved Traffic Control Plan must be kept on the work site for inspection by relevant Council Officer or Police.		√	√	√
The applicant shall comply with any reasonable directive from Council's Compliance Officers or the Police.	√	√	√	√
Council reserves the right to revoke the approval at any time without any compensation to the applicant.	√	√	√	√
Any variation on the approved date and conditions of approval must be submitted to Council for resolution.	√	√	√	√
Must meet all costs associated with the permit and shall pay all fees in accordance with the Council's current Fees and Charges.	√	√	√	√

**About this application**

This application is to be used when applying to carry out construction related activities and work within road reserve such as temporary full or partial road closure, stand and operate vehicle or plant, establish work zones and to carry out public domain works such as vehicular footway crossing.

**How to complete this application**

1. Ensure that all fields have been filled out correctly (Please note that fields on this form marked with an asterisk\* are mandatory and must be completed before submitting the application).
2. Inadequate information will delay processing of your application.
3. Once completed you can **submit this form by email to [metro@cbcity.nsw.gov.au](mailto:metro@cbcity.nsw.gov.au) and pay by credit card.** Once the form is received by Council one of our Customer Service Team members will contact you on the number provided to obtain payment.

## Notes on urgency

1. Installation of a Work Zone and Temporary Full Road Closure require approval of the Local Traffic Committee and the process generally takes six (6) weeks.
2. Minimum of ten (10) working days are required for Council to process Standing & Operating Vehicle or Plant Applications AND Road Lane, Footpath Closure Applications. If possible, urgent Standing Plant & Operating Vehicle Applications will be processed within two (2) working days following complete lodgement of the applications, additional Urgency Fees apply.  
**Two (2) working days processing, however, is not guaranteed. This should only be used in emergency scenarios.**

Hi Jesse,

Please see comments below on Wiley park Station- Nature Strip Occupation:

On Operations view:

We are okay with Urunga Parade side , there is a pathway between Urunga Pde and Shadforth St , which is not affecting for public use.

On The Boulevarde, two carparks to be taken temporarily and two seats to be temporarily relocated toward footpath, we are okay with it.

Hi James,

I just provide the following comment:

- Sydney Metro must provide and maintain appropriate and adequate traffic measures (including detour signs and flagmen) for the safe movement of pedestrians.

Regards,

**Terry Hawi** - Traffic Engineer

Subject: Wiley Park Station- Nature Strip Occupation

Hi Team,

Sydney Metro Contractor have revised the layout plan of installing AFT fencing on two locations as per attached documents.

- a. On the Urunga Parade to Shadforth Street, via Stanlea Parade the AFT fence stops on end of Shadforth Street marked in blue line.
  
- b. On The Boulevard Access the contractor requires 28mx 7m with 2.4m gate on two carparks to be taken . Droppable bollards in each to be installed and NO stopping signs. Two existing chairs to be temporarily relocated toward the edge of the footpath and ATF fence at the back of the chairs.

Your feedback and comments by 14April will be greatly appreciated.

Best regards,

**James Magsipoc** - Project Officer

## Appendix F – Community Notification

# Notification – Wiley Park

November 2022

Sydney Metro is Australia’s biggest public transport project.

By 2030, Sydney will have a network of four metro lines, 46 stations and 113km of new metro rail.

Sydney Metro is revolutionising how Australia’s biggest city travels, connecting Sydney’s north west, south west and greater west to fast, reliable turn-up-and-go metro services with fully accessible stations.

Passenger services from Chatswood to Sydenham will commence in 2024, then on to Bankstown within 12 months.

**In November, work will continue along the corridor and at Wiley Park Station (weather and site conditions permitting).** Work will be undertaken during standard construction hours, **Monday to Friday 7am-6pm** and **Saturday 8am-6pm**.

**Please note that the proposed scope of work, particularly during planned rail shutdowns, may be impacted by potential ongoing industrial action at Sydney Trains. This is because most of our work requires permits to isolate power and provide safe access to the rail corridor - which must be issued by Sydney Trains.**

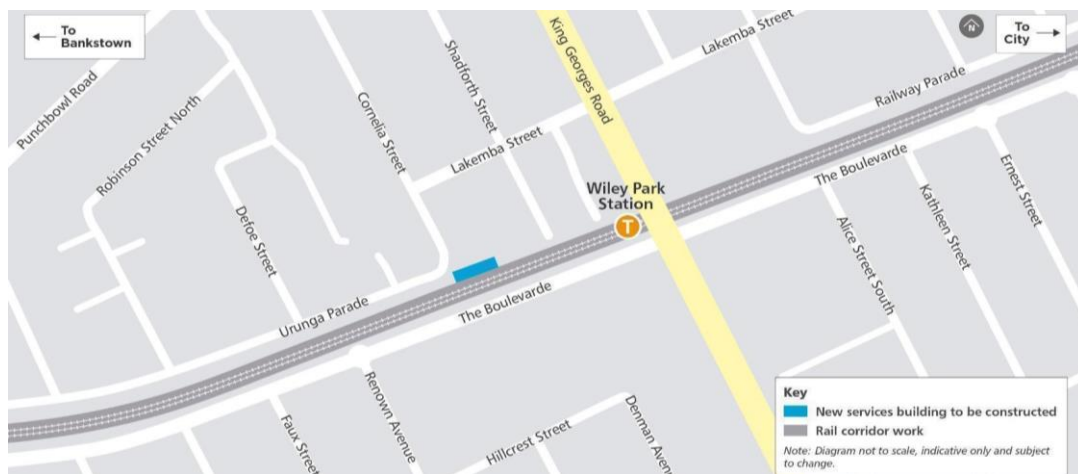

While this industrial action is outside of Sydney Metro’s control, we apologise for any potential delays. We appreciate your patience and will continue to notify residents close to our work sites about activities that will impact them directly.

Location	Details of work during standard construction hours (daytime)
Wiley Park (along the rail corridor)	<ul style="list-style-type: none"> <li>• Delivery of construction plant and material including traffic control</li> <li>• Site investigations and surveys including (but not limited to) non-destructive digging, soil assessments, geotechnical investigations and surveys for drainage, utilities, and fencing</li> <li>• Removal of trees, vegetation and asbestos (if encountered and required)</li> <li>• Utilisation of the Faux Street / The Boulevard rail corridor access gate and laydown areas</li> <li>• Installation of security fencing</li> <li>• Trackside access ramp installation</li> <li>• Various site investigations and surveys including but not limited to non-destructive digging, soil assessments, geotechnical investigations and surveys for drainage, utilities, and fencing</li> <li>• Installation of cable service routes, galvanised steel troughing (GST)</li> <li>• De-vegetation and tree clearing throughout the rail corridor where required</li> <li>• Relocation of Ausgid cable routes</li> <li>• Delivery of plant and material including preparatory activities for upcoming out-of-hours work</li> </ul>
Wiley Park Station	<ul style="list-style-type: none"> <li>• Delivery of construction plant and material as required including traffic control</li> <li>• Site investigations and surveys including (but not limited to) non-destructive digging, soil assessments, geotechnical investigations and surveys for drainage, utilities, and fencing</li> <li>• Removal of trees, vegetation and asbestos (if encountered and required)</li> <li>• Pedestrian diversions through Stanlea Parade, King Georges Road, The Boulevard, Urunga Parade and Shadforth Street and carpark occupation on The Boulevard</li> <li>• Concourse paving, finishing and painting work</li> <li>• Installation of roofing and glazing</li> <li>• Ongoing Northern Plaza landscaping work</li> <li>• Platform 1 and 2 building construction work</li> <li>• Mechanical, plumbing, and electrical installations</li> <li>• Installation of platform balustrade</li> </ul>

### Out-of-hours work

Due to the nature of some activities and for the safety of workers, some work will occur outside standard construction hours when trains are not running. Some equipment will also be delivered outside standard construction hours in line with Transport for NSW requirements for the movement of oversized vehicles. Properties in proximity to scheduled work will be notified prior to work starting. Planned out-of-hours work following the shutdown are detailed in the table overleaf.

Date / time	Details of out-of-hours (including night) work
<p>Mid-week between <b>6pm and 7am Monday 31 October and Friday 2 December 2022</b> (for no more than 3 nights per week)</p>	<ul style="list-style-type: none"> <li>• RMS balustrade installation on King Georges Road including repairing concrete along the existing balustrade</li> <li>• Various site investigations and surveys including but not limited to non-destructive digging, soil assessments, geotechnical investigations and surveys for drainage, utilities, and fencing</li> <li>• Delivery of plant and material including preparatory activities for upcoming out-of-hours work</li> <li>• Concrete works associated with installing galvanised steel troughing, new cable routes and bridge upgrades</li> </ul>
<p><b>Upcoming weekend rail possessions:</b></p> <p>Between 8pm Friday 4 November and 5am Monday 7 November</p>	<ul style="list-style-type: none"> <li>• Installation of artwork glazing</li> <li>• Platform and concourse canopy construction</li> <li>• Scaffolding work</li> <li>• Installation of fencing</li> <li>• Ramp and concourse balustrade work and concrete repair on King Georges Road</li> <li>• Ramp asphalt works</li> <li>• Mechanical, electrical and drainage work</li> </ul>

Equipment used for the above work will include heavy machinery (including but not limited to excavators, jack hammers, vacuum trucks, slashers, motorised saws, concrete trucks, elevated work platforms, concrete pumps, cranes, cable pulling equipment, road sweeper, compactors, lighting towers, forklifts, chainsaws, and water carts), and hand and power tools.

Access to buildings and driveways will be maintained at all times. Some of this work may be noisy, however we will take every possible step to minimise noise such as switching off equipment when not in use and using non-tonal reversing beepers.

### Keeping you informed

You can contact us on **1800 171 386** (24 hour community information line). If you have questions about the **substations** please ask for **Chris** or email [LinewideMetro@transport.nsw.gov.au](mailto:LinewideMetro@transport.nsw.gov.au). For all other work please ask for **Elizabeth** or email [SouthwestMetro@transport.nsw.gov.au](mailto:SouthwestMetro@transport.nsw.gov.au).

**Thank you for your cooperation while we complete this essential work.**
